

## Chain No. 12

Our range of brass decorative chains have been designed to give you the widest choice of styles and sizes with your lighting installations. With designs ranging from the 18th century to the present day, all brass pieces can be coloured in any of our twelve finishes. When suspending heavy loads using decorative cast chain, the preferred option is to run a thin reinforcing steel cable through or alongside the links which we can supply with the appropriate fixings. Please contact us for details of safe working loads and installation options. For heavy loads without extra support, we recommend using either our heavy-duty solid brass welded chains or brass coloured steel welded chains.

Dimensions

Link length 60mm, width 25mm
