

## 19th Century Antique

A refined early Regency chimneypiece carved in black marble. A fish-scale detail runs through the surround, and a patera motif is shown in the corner blocks and at centre of the header. The thin shelf together with the proportions of this design are typical of early 19th century chimneypieces, while the unusual decorative pattern makes it a rare specimen.

### Dimensions

Height 45¼in (115cm) width 53¾in (144cm)

Internal height 37in (94cm) width 34¼in (87cm)

Footblock to footblock 48½in (123cm)

Shelf depth 7½in (18cm)
